

List of the publications of

Assoc. prof. Dr. Robert Kazandjiev

1. M.Mitov, **R.Kazandjiev**,
Analysis of Rheology Behaviour of a Hard Polymer Subjected;
to Creep in Torsion;
Proc. of the 3d Nat. Congress on Theor. Appl. Mechanics, 1977, vol.1, pp 529 - 533
2. A.Baltov, N.Boncheva, **R.Kazandjiev**, Iv.Radovanov; St.Vodenicharov,
On the Theoretical and Experimental Description of the Mechanical Behaviour of Metals
during Metal Forming Proc.;
Proc. IUTAM Symp. Tutzing, Springer Verlag, 1979, pp 14 - 26;
3. **R. Kazandjiev**,
Specification of an appropriate cooling regime of a steel sheet roll;
Proc. of the 4th Nat. Congress on Theor. Appl. Mechanics, 1981, vol.1, pp 807 – 812
(Bulgarian)
4. A. Baltov, N/ Bontcheva, **R. Kazandjiev**, Iv. Radovanov, St. Vodenitcharov,
A method of microstress study of plastic materials sensitive to strain rate;
Theor. Appl. Mech., 1982, vol. 2, pp 73 - 82; (Bulgarian)
5. O. Minchev, **R.Kazandjiev**,
Optimal Design of Plates and Shells when Accounting for Material Damage,
Proc.ECF9, Varna, 1992, vol. 2, pp 1104 - 1108;
6. O. Minchev, **R.Kazandjiev**,
Damage Development and Effects on Loaded Structure Elements,
Proc. 2nd Int.Conf.Nonlin.Mech., Beijing, China, 1993, pp 328 - 330;
7. A.Baltov, V.Balavessov, I. Russev, P.Kulev, **R. Kazandjiev**,
Identification of the Rheology Parameters of Rubber by Using Digital Speckle Pattern
Interferometry, *Theoret.Appl.Mech.*, 1993, vol. 2, pp 135 - 142;
8. P.Gospodinov, **R.Kazandjiev**, M.Mironova,
The Effect of Sulphate Ions Diffusion on the Structure of Cement Stone,
Cement and Concrete Composites, Elsevier Sc., 1996, vol.18, No.6, pp 401 - 407
9. A. Baltov, **R. Kazandjiev** et al.,
Laboratory book on solid mechanics, vol. 1,

Joint edition of Sofia University "St. Kl. Ohridski" and Moscow State University "V. Lomonosov", 1987 (Bulgarian),

9.1. **R. Kazandjiev**, E. Lomakin,

Diagram $\sigma - \varepsilon$ under tension/compression accounting for material deformation anisotropy,
pp 44 – 51.

9.2. **R. Kazandjiev**, E. Lomakin,

Diagrams of pure shear in the symmetry plane of a specimen of an anisotropic material (torsion of a thin walled tube),
pp 52 – 59.

9.3. **R. Kazandjiev**, A. Baltov, N. Malinin,

Diagram of uniaxial tension drawn after testin a polymer material. Theory of Boltzmann-Voltera,
pp 71 – 78.

9.4. **R. Kazandjiev**, R. Zvyagin,

Longitudinal impact between two elastic rods,
pp 172 – 179.

9.5. **R. Kazandjiev**, B. Malishev,

Propagation of elasto-plastic waves in steel rods,
pp 180 – 192.

9.6. **R. Kazandjiev**, L. Mirkin,

Dislocations and plasticity of crystal bodies,
pp 193 – 201.

10. A. Baltov, **R. Kazandjiev** et al,

Laboratory book on solid mechanics, vol. 2,

Joint edition of Sofia University "St. Kl. Ohridski" and Moscow State University "V. Lomonosov", 1989 (Bulgarian),

10.1. **R. Kazandjiev**, A. Baltov, R. Vasin, M. Mitov,

Elasto-plastic deformation of metals undergoing complex loading,
pp 10 - 18.

10. 2. **R. Kazandjiev**, A. Baltov, R. Vasin, M. Mitov,

Elasto-plastic deformation of metals under complex stressed and strained state,
pp 19 - 29.

- 10.3. **R. Kazandjiev**, A. Lokoshchenko, S. Shesterikov,
Cleop of metals under complex stressed state,
pp 64 - 73.
- 10.4. **R. Kazandjiev**, M. Mihovski, M. Djallalova,
Impact between two solid bodies,
pp 171 - 180.
- 10.5. **R. Kazandjiev**, M. Mihovski, N. Veklich,
Low frequency bending oscillations of circular elastic membranes,
pp 181 – 189.
11. A. Baltov, **R. Kazandjiev** et al,
Laboratory book on solid mechanics, vol. 3,
Joint edition of Sofia University “St. Kl. Ohridski” and Moscow State University “V. Lomonosov”, 1991 (Bulgarian),
- 11.1. **R. Kazandjiev**, A. Zvyagin,
Direct experimental method of obtaining the diagrams of shock loading of ground layers,
pp 41 – 47.
- 11.2. I. Russev, **R. Kazandjiev**, V. Netrebko,
Nondestructive testing of solids via holographic interferometry,
pp 62 – 72.
- 11.3. I. Mihovski, **R. Kazandjiev**,
Determination of the limit of metal crack resistance,
pp 128 –138.
- 11.4. **R. Kazandjiev**, I. Mihovski, I. Kershtein,
Study of crack propagation in plastics under fatigue,
pp 139 –156.
12. P.Gospodinov, **R.Kazandjiev**, M.Mironova,
On the Mechanism of Sulphate Ion Diffusion in Cement Stone, *Journ. of Theoret. and Applied Mechanics*, 1994- 1995, vol.4, pp 140 - 148;
- 13.**R. Kazandjiev**, P. Gospodinov, T. Partalin, M. Mironova
Acoustical Study of Sulphate Ion Penetration into Cement Stone,
Proc.11th Nat. Conf. “Defectoscopy-96”, 1996, pp 190 - 194;
14. M. Mironova, P. Gospodinov, **R. Kazandjiev**, T. Partalin,

Estimation of the Depth of Sulfate Ion Penetration into Cement Stone,
Proc. 3d Int. Symp. on Textile Comp. in Building Mater., Seoul, Korea, 1996, pp 137 - 144;

15. N. Sirakov, **R. Kazandjiev**,
3D Representation of Flaws in Natural Resources and Materials,
Proc. QCAV'97, Int. Conf. of Quality Contr.by Artific.Vision, Le-Creusot, France, 1997, pp 75 – 79

16 P. Gospodinov, **R. Kazandjiev**, T. Partalin, M. Mironova,
Strength Changes Occurring in Cement Stone Under Sulfate Attack,
J. Theor. Appl. Mech., 1998, pp 70-76.

17. P.Gospodinov, **R.Kazandjiev**, T.Partalin, M. Mironova,
Diffusion of Sulfate Ions into Cement Stone Regarding Simultaneous Chemical Reactions and Resulting Effects,
Cement and Concrete Research, Elsevier Sc., 29 (1999), pp 1591-1596

18. M. Mironova, P.Gospodinov, **R. Kazandjiev**, T. Partalin,
Assessment of Sulfate Corrosion Influence on Cement Composite Structure and Mechanical Behaviour,
Proc. 2nd Intern. Symp. "Cement and Concrete Technology in the 2000", Istanbul, Turkey, 2000, pp 439-446.

19. E. Pencheva, **R. Kazandjiev**, Bulgarian translation of MBTI materials: Problems and solutions. In R. A. Moody (Ed.), *Proc. Psychological type and culture – East and West: A multicultural research symposium, January 6-8, 2001, Honolulu, Hawaii*, Center for Applications of Psychological Type, 2001, pp 73–79
